

CoCo Seminar Series: Fall 2012

*** The CoCo Seminars are now a permanent graduate seminar course BME-524 ***

Wednesday 9:00-10:00am

Fine Arts 242 ***NOTE: Room is different for this semester!!**

With refreshments; followed by free discussions

September 19: Hiroki Sayama (Bioengineering & Systems Science and Industrial Engineering)

"Post-Merger Cultural Integration from a Social Network Perspective: A Computational Modeling Approach"

October 10: Richard Lee (Sociology) *****NOTE: Starts earlier at 8:30am*****

"The Structures of Knowledge and the Crisis of the Modern World-System"

October 31: Yu Chen (Electrical and Computer Engineering)

"An Introduction to Moving Target Defense in Cloud"

November 14: Keith Thompson (Systems Science)

"Co-evolution of Topological and Semantic Properties in Complex Dynamic Networks"

November 28: Simon Joyce (Mathematical Sciences)

"An Introduction to Gene Regulatory Networks"

December 12: Dave Schaffer (Bioengineering)

"Complex Systems as a Foundation for a Grand Theory of Everything"

Contact Hiroki Sayama (sayama@binghamton.edu) for more information
